

REMARKS/ARGUMENTS

Non-compliant amendments to the specification:

The amendment filed 27 February 2007 improperly adds an apostrophe after “Iref”.

5

Response:

Paragraphs [0021], [0022], [0023], and [0032] have been amended to amend all instances of the term *Iref* that were written as *Iref* in the specification as filed. The apostrophes appear to have been dropped when the specification was converted to the format used for the Electronic Filing System (EFS). These errors in the specification as filed were made without deceptive intent. The amendments to the specification are fully supported in Figure 4 of the application, and no new matter is added.

10

As only the amendments to the specification were found to be non-compliant, only the specification is being corrected in this paper. The amendments to the claims are still reflected in the amendment filed on February 27, 2007.

15

Acceptance of the corrected specification is respectfully requested.
